

***COMPLETE WIRE MANAGEMENT SOLUTIONS***

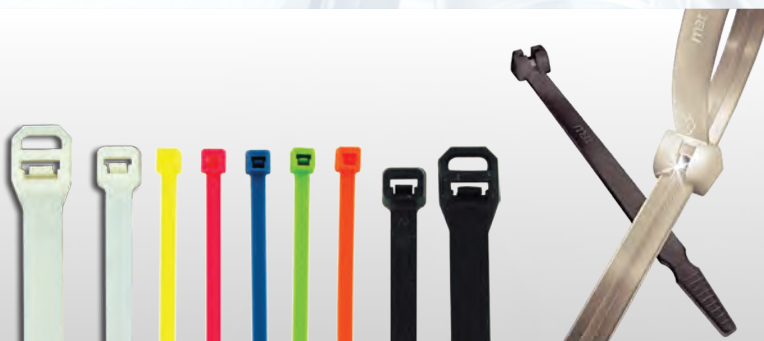

***CONTROL PANELS***

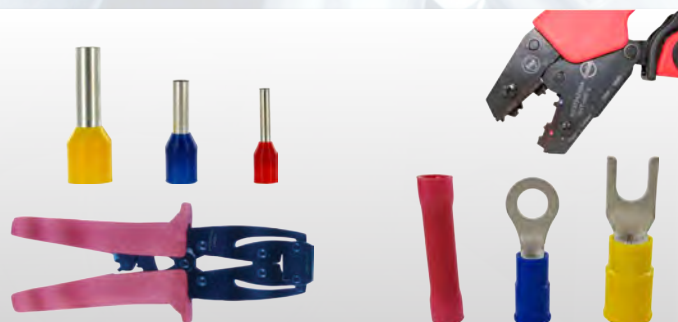

## CABLE TIES

- We have Type 21S cable ties in stock.
- Techspan has a massive selection of single and multi-coloured in-stock cable ties to choose from
- Choose from Nylon 6/6, Cold Weather, Metal Tooth, Stainless Steel, metal detectable and other specialty ties.

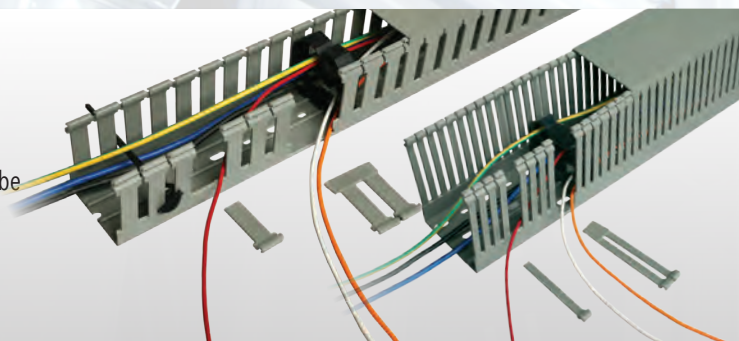

## TERMINALS & FERRULES

- Over 1000 different terminals in-stock from ring terminals to quick disconnects for all wire gauges.
- Our terminals are made to provide safe long-term solutions for any type of project.
- Techspan ferrules offer safe termination of stranded wires. Eliminating the risk of fraying and accidental contacts and short circuits

## WIRE DUCT

- Narrow-slot styles are ideal for use with slimmer terminal blocks when more access is required.
- Wide-slot styles are ideal for applications where terminated wires can be re-routed easily.
- Our unique "corner duct" Wire Duct saves space in electrical panels

## MULTI-POLE CONNECTORS

- Techspan Quik-Con connectors have stainless steel latches for better corrosion resistance, which means more reliability and total cost over time.
- Mounting grommets are ridged and seated. This holds the grommet securely in place for faster installation and a surer seal.
- Techspan's Quik-Con line is perfect for control & automation equipment, and wherever high plugging frequency connections are required.

## COMPRESSION & MECHANICAL LUGS

- UL Listed and CSA certified, copper/aluminum compression lugs & splices
- Seamless, one piece copper construction with tin plating assures maximum conductivity
- Generous entrance chamfer provides easy cable insertion
- Can be installed with existing crimping tools
- Catalogue number and conductor sizes marked on every piece

## PUSH BUTTONS

- High quality steel push buttons which are guaranteed to be more rugged and last longer with frequent use
- Our 22mm Push Buttons are designed for severe industrial applications and environments.

## CONTACTORS

- Techspan IEC contactors are suitable for a variety of applications like motor control, heating and ventilating, air conditioning, pumping, lifting equipment, lighting, and process power.
- Perfect for rugged industrial applications.

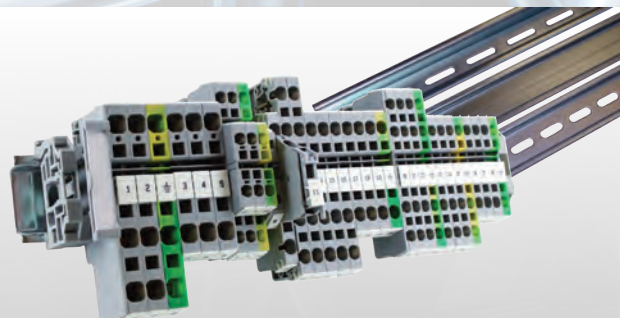

## HEAT SHRINK

- Techspan offers thin, medium and heavy wall heat shrinkable tubing made from a specially formulated, cross-linked polyolefin.
- Our heat shrink tubing is highly resistant to flame, highly flexible and has excellent chemical, physical and electrical properties.
- It also offers superior resistance to abrasion and meets UL, CSA and military specifications.

## TERMINAL BLOCKS & DIN RAIL

- We offer a wide variety of sizes, wire termination methods, current ratings, colors and accept a complete range of wire.
- Techspan DIN terminal Blocks distribute power and ground and also protect against overloads.
- Available in both screw and spring clamp termination.

## CORD GRIPS

- Stainless steel, nickel plated brass, aluminum, steel, and nylon a Cord Grip for every application.
- Our Cord Grips prevent cable pullout, control arc of bend and provide a tight seal against environmental elements.

## TECK CONNECTORS

- Our Teck Connectors have a unique and patented design giving you the fastest installation in the industry!
- State-of-the-art design allows many connectors to be installed side by side in tight fitting or smaller spaces.

## SPIRAL WRAP, LOOM & BRAIDED SLEEVING

- Techspan offers a huge range of Split Loom Tubing including a hi-temperature version for engine compartments.
- High quality Monofilament sleeving protects your wires and our Hi-Temp fiberglass type is an excellent choice if being used in environments to 1200° Fahrenheit.
- Black polyethylene split loom provides wire harnesses with protection from heat & sunlight, water, snow, salt, vibration wear, fraying or puncture.
