

CST Arwin Joins Weidmüller Canada as a Manufacturer Representative for Electronic Printed Circuit Board Connectors

Markham, ON, Canada – january 25, 2026 – Weidmüller Canada is pleased to announce that CST Arwin will represent the Weidmüller PCB connectors and PCB terminal blocks across Canada as part of a strategic initiative to empower select partners to deliver enhanced value to customers. Through this partnership, CST Arwin will act as an extension of Weidmüller's sales team, focusing on advancing electronic device connector technology, accessing new market opportunities, supporting distribution channels, and addressing gaps within Canada's industrial Original Equipment Manufacturer (OEM) Device Developers market.

This collaboration reflects Weidmüller's commitment to building strong alliances that drive innovation and growth in the device connector OEM market. By partnering with CST Arwin, Weidmüller Canada will leverage CST Arwin's industry expertise and customer relationships to expand its reach and deliver world-class connectivity solutions. Printed Circuit Board(PCBs) device connections for power, signal, data, or IP 67 field connections are essential components in modern electronics, serving as the foundation for connecting and supporting electronic components in various devices. This partnership will strengthen innovation with PCB connectivity for OEM equipment manufacturers, with a focus on Weidmüller's patented, leading-edge SNAP IN and OMNIMATE 4.0 technology solutions across Canada.

Gary Martins, Managing Director of Weidmüller Canada, emphasized the importance of this partnership: *“CST Arwin brings a wealth of experience and a strong commitment to customer success. Their participation will help us extend our market presence and ensure that our customers and distribution network is fully supported. This partnership reflects our shared vision of driving innovation and growth in the Canadian industrial Device Manufacturing OEM sectors while adding value to an ever-evolving market.”*

Robert DeRose, President of CST Arwin, shared his excitement about joining the program: *“We are proud to partner with Weidmüller Canada to complement our product line with industrial Device power, signal, and data connectors and work alongside a world-class, market-leading PCB connector company and team. This collaboration allows us to combine our market knowledge and customer relationships with Weidmüller's high-quality, innovative solutions. Together, we aim to create new opportunities, strengthen distribution support, and deliver exceptional value to our clients.”*
